Contents

Volume 20 Number 1

S. A. Goldstein, T. J. Armstrong, D. B. Chaffin and L. S. Matthews	1	**Analysis of cumulative strain in tendons and tendon sheaths**
K. Takamizawa and K. Hayashi	7	**Strain energy density function and uniform strain hypothesis for arterial mechanics**
J. L. Stein and W. C. Flowers	19	**Stance phase control of above-knee prostheses: knee control versus SACH foot design**
J. W. Vahey, J. L. Lewis and R. Vanderby Jr	29	**Elastic moduli, yield stress, and ultimate stress of cancellous bone in the canine proximal femur**
M. Gitterman and M. Lewkowicz	35	**The first heart sound during the isovolumetric contraction**
J. M. Mansour and J. M. Pereira	51	**Quantitative functional anatomy of the lower limb with application to human gait**
J. D. Humphrey, D. L. Vawter and R. P. Vito	59	**Quantification of strains in biaxially tested soft tissues**
C. van Baardwijk and M. R. Roach	67	**Factors in the propagation of aortic dissections in canine thoracic aortas**
U. Proske and D. L. Morgan	75	**Tendon stiffness: methods of measurement and significance for the control of movement. A review**
F. Linde and I. Hvid	83	**Stiffness behaviour of trabecular bone specimens**
Letters to the Editor		
G. J. van Ingen Schenau and A. P. Hollander	91	**Comment on 'A mathematical theory of running' and the applications of this theory**
A. J. Ward-Smith	94	Reply to 'Comment on 'A mathematical theory of running' and the applications of this theory'
Books Received	97	
Announcement	99	Biomedical Engineering
Erratum	101	
Software Survey Section	I	

Volume 20 Number 2

A. E. Engin and R. D. Peindl	103	**On the biomechanics of human shoulder complex—I. Kinematics for determination of the shoulder complex sinus**
R. D. Peindl and A. E. Engin	119	**On the biomechanics of human shoulder complex—II. Passive resistive properties beyond the shoulder complex sinus**
R. E. Seroussi and M. H. Pope	135	**The relationship between trunk muscle electromyography and lifting moments in the sagittal and frontal planes**
C. F. Munro, D. I. Miller and A. J. Fuglevand	147	**Ground reaction forces in running: a reexamination**
C. Högfors, G. Sigholm and P. Herberts	157	**Biomechanical model of the human shoulder—I. Elements**
A. L. Hof, C. N. A. Pronk and J. A. van Best	167	**Comparison between EMG to force processing and kinetic analysis for the calf muscle moment in walking and stepping**
W. R. Newcombe, R. U. Repo, N. B. Eaton and J. Occhionorelli	179	**A mechanical evaluation of an elastic femoral prosthetic stem**
D. T. Davy and M. L. Audu	187	**A dynamic optimization technique for predicting muscle forces in the swing phase of gait**
P. A. Torzilli, T. C. Adams and R. J. Mis	203	**Transient solute diffusion in articular cartilage**
Technical Note		
R. D. Woittiez, C. Brand, A. de Haan, A. P. Hollander, P. A. Huijing, R. van der Tak and W. H. Rijnsburger	215	**A multipurpose muscle ergometer**
Letter to the Editor		
H. J. Woltring	219	**Software development in biomechanics**
Books Received	221	
Announcements	223	**Biomechanics of Human Movement in Orthopaedics, Rehabilitation, Neuroscience and Sports**
	223	**Second International Conference on Physiological Fluid Dynamics**

223 **Eleventh Annual Meeting of the American Society of Biomechanics**

224 **Third European Conference on Research in Rehabilitation**

Software Survey Section I

Volume 20 Number 3

S. R. Shaw, R. F. Zernicke, A. C. Vailas, D. DeLuna, D. B. Thomason and K. M. Baldwin — 225 **Mechanical, morphological and biochemical adaptations of bone and muscle to hindlimb suspension and exercise**

R. N. Vaishnav and J. Vossoughi — 235 **Residual stress and strain in aortic segments**

J. C. Misra and S. Samanta — 241 **Effect of material damping on bone remodelling**

S. F. Levinson — 251 **Ultrasound propagation in anisotropic soft tissues: the application of linear elastic theory**

R. A. Salzstein, S. R. Pollack, A. F. T. Mak and N. Petrov — 261 **Electromechanical potentials in cortical bone—I. A continuum approach**

R. A. Salzstein and S. R. Pollack — 271 **Electromechanical potentials in cortical bone—II. Experimental analysis**

J. K. Louie and C. D. Mote Jr — 281 **Contribution of the musculature to rotatory laxity and torsional stiffness at the knee**

G. A. Dumas, L. Beaudoin and G. Drouin — 301 ***In situ* mechanical behavior of posterior spinal ligaments in the lumbar region. An *in vitro* study**

K. Perktold — 311 **On the paths of fluid particles in an axisymmetrical aneurysm**

S. A. Jones and A. Fronek — 319 **Analysis of break frequencies downstream of a constriction in a cylindrical tube**

Book Review
R. A. Brand — 329 ***Biomechanical Measurement in Orthopaedic Practice,* by M. Whittle and D. Harris (Eds)**

Announcements — 331 **Thirteenth Canadian Medical and Biological Engineering Conference**

331 **Occupational Ergonomics**

331 **1987 Olympic Festival Congress on Sports Medicine and Science**

Software Survey Section

I **LIMBS**

II **MVMA 2-D crash victim simulation**

Volume 20 Number 4

M. Cornelissen, P. Cornelissen, G. van der Perre, A. B. Christensen, F. Ammitzboll and C. Dyrbye — 333 **Assessment of tibial stiffness by vibration testing *in situ*—III. Sensitivity of different modes and interpretation of vibration measurements**

I. Nigul and U. Nigul — 343 **On algorithms of evaluation of Fung's relaxation function parameters**

J. M. Hasenkam, D. Westphal, H. Reul, J. Gormsen, M. Giersiepen, H. Stodkilde-Jorgensen and P. K. Paulsen — 353 **Three-dimensional visualization of axial velocity profiles downstream of six different mechanical aortic valve prostheses, measured with a hot-film anemometer in a steady state flow model**

F. M. Montevecchi and R. Pietrabissa — 365 **A model of multicomponent cardiac fibre**

M. R. Schlumpf and P. F. Niederer — 371 **Motion patterns of pedestrian surrogates in simulated vehicle–pedestrian collisions**

N. G. Dagalakis, C. Muehlhouse, S. Wakamiya and J. C. S. Yang — 385 **Loss of control biomechanics of the human arm–elbow system**

J. A. Clark, J. C. Y. Cheng, K. S. Leung and P. C. Leung — 397 **Mechanical characterisation of human postburn hypertrophic skin during pressure therapy**

D. N. Ku and D. P. Giddens — 407 **Laser Doppler anemometer measurements of pulsatile flow in a model carotid bifurcation**

R. L. Kirby, N. A. Price and D. A. MacLeod — 423 **The influence of foot position on standing balance**

J. R. Engsberg — 429 **A biomechanical analysis of the talocalcaneal joint—*in vitro***

Technical Note

H. C. Schamhardt and H. W. Merkens — 443 **Quantification of equine ground reaction force patterns**

Software Survey Section I

Volume 20 Number 5

F. A. Baragar and J. W. Osborn	447	**Efficiency as a predictor of human jaw design in the sagittal plane**
R. Shiavi, T. Limbird, M. Frazer, K. Stivers, A. Strauss and J. Abramovitz	459	**Helical motion analysis of the knee—I. Methodology for studying kinematics during locomotion**
Y.-C. Deng and W. Goldsmith	471	**Response of a human head/neck/upper-torso replica to dynamic loading—I. Physical model**
Y.-C. Deng and W. Goldsmith	487	**Response of a human head/neck/upper-torso replica to dynamic loading—II. Analytical/numerical model**
C. C. M. Rindt, F.N.v.d. Vosse, A. A. v. Steenhoven, J. D. Janssen and R. S. Reneman	499	**A numerical and experimental analysis of the flow field in a two-dimensional model of the human carotid artery bifurcation**
T. Bober, C. A. Putnam and G. G. Woodworth	511	**Factors influencing the angular velocity of a human limb segment**
I. I. H. Chen and S. Saha	523	**Wave propagation characteristics in long bones to diagnose osteoporosis**
D. I. Miller	529	**Resultant lower extremity joint moments in below-knee amputees during running stance**
A. J. M. van der Vaart, H. H. C. M. Savelberg, G. de Groot, A. P. Hollander, H. M. Toussaint and G. J. van Ingen Schenau	543	**An estimation of drag in front crawl swimming**
Technical Note		
P. R. Cavanagh and M. M. Rodgers	547	**The arch index: a useful measure from footprints**
Letters to the Editor		
D. C. Fricker and P. Procter	553	**Comment on the paper 'Mechanical behaviour of femoral bones in bending loading'**
M. Martens, R. van Audekercke, P. de Meester and J. C. Mulier	553	**Authors' response**
R. Kram	554	**Comment on 'On the relation between joint moments and pedalling rates'**
R. Redfield and M. L. Hull	554	**Authors' response**
Software Survey Section	I	

Volume 20 Number 6

S. L.-Y. Woo, J. M. Hollis, R. D. Roux, M. A. Gomez, M. Inoue, J. B. Kleiner and W. H. Akeson	557	**Effects of knee flexion on the structural properties of the rabbit femur-anterior cruciate ligament-tibia complex (FATC)**
J. G. Andrews	565	**The functional roles of the hamstrings and quadriceps during cycling: Lombard's Paradox revisited**
F. C. P. Yin, R. K. Strumpf, P. H. Chew and S. L. Zeger	577	**Quantification of the mechanical properties of noncontracting canine myocardium under simultaneous biaxial loading**
S. M. McGill and R. W. Norman	591	**Effects of an anatomically detailed erector spinae model on L4/L5 disc compression and shear**
A. Shirazi-Adl and G. Drouin	601	**Load-bearing role of facets in a lumbar segment under sagittal plane loadings**
E. H. Frank and A. J. Grodzinsky	615	**Cartilage electromechanics—I. Electrokinetic transduction and the effects of electrolyte pH and ionic strength**
E. H. Frank and A. J. Grodzinsky	629	**Cartilage electromechanics—II. A continuum model of cartilage electrokinetics and correlation with experiments**
R. H. Morton	641	**A simple model to link hemodynamics, fatigue and endurance in static work**
N. R. Deuel and L. M. Lawrence	645	**Laterality in the gallop gait of horses**
Announcements	651	**Second International Conference on Physiological Fluid Dynamics**
	651	**Sixth Biomedical Engineering Conference**
	651	**The Volvo Awards for Low Back Pain Research 1988**
Software Survey Section	I	

Volume 20 Number 7

R. Shiavi, T. Limbird, M. Frazer, K. Stivers, A. Strauss and J. Abramovitz — 653 **Helical motion analysis of the knee—II. Kinematics of uninjured and injured knees during walking and pivoting**

P. R. Greene — 667 **Sprinting with banked turns**

J. M. Egan — 681 **A constitutive model for the mechanical behaviour of soft connective tissues**

P. S. Walker, D. Schneeweis, S. Murphy and P. Nelson — 693 **Strains and micromotions of press-fit femoral stem prostheses**

A. F. Mak, W. M. Lai and V. C. Mow — 703 **Biphasic indentation of articular cartilage—I. Theoretical analysis**

J. J. Spiegelman and S. L.-Y. Woo — 715 **A rigid-body method for finding centers of rotation and angular displacements of planar joint motion**

1986 European Society of Biomechanics Award

C. T. Rubin, G. W. Pratt, A. L. Porter, L. E. Lanyon and R. Poss — 723 **The use of ultrasound *in vivo* to determine acute change in the mechanical properties of bone following intense physical activity**

Technical Notes

S. K. Ghosh and F. Poirier — 729 **Photogrammetric technique applied to anthropometric study of hands**

J. D. Ross and R. B. Ashman — 733 **A thin foot switch**

Software Survey Section — I

Volume 20 Number 8

S. Bouisset and M. Zattara — 735 **Biomechanical study of the programming of anticipatory postural adjustments associated with voluntary movement**

S. M. Bentzen, I. Hvid and J. Jørgensen — 743 **Mechanical strength of tibial trabecular bone evaluated by X-ray computed tomography**

L. Lindbeck — 753 **Analysis of the asymmetrically loaded spine by means of a continuum beam model**

G. W. Brodland and A. B. Thornton-Trump — 767 **Gait reaction reconstruction and a heel strike algorithm**

J. D. Humphrey 773 **A possible role of the pleura in lung mechanics**

D. Krajcinovic, J. Trafimow and D. Sumarac 779 **Simple constitutive model for a cortical bone**

D. R. Carter, D. P. Fyhrie and R. T. Whalen 785 **Trabecular bone density and loading history: regulation of connective tissue biology by mechanical energy**

V. G. J. Rodgers, M. F. Teodori and H. S. Borovetz 795 **Experimental determination of mechanical shear stress about an anastomotic junction**

Abstracts 805 **Fifth meeting of the European Society of Biomechanics**

Letters to the Editor

T. P. Harrigan 827 **Cartilage is poroelastic but not biphasic**

V. C. Mow 828 **Reply to Harrigan's letter: Cartilage is poroelastic but not biphasic**

Software Survey Section I

Volume 20 Number 9

A. M. Brant, M. F. Teodori, R. L. Kormos and H. S. Borovetz 831 **Effect of variations in pressure and flow on the geometry of isolated canine carotid arteries**

N. D. Panagiotacopulos, M. H. Pope, M. H. Krag and R. Bloch 839 **A mechanical model for the human intervertebral disc**

J. Mizrahi and E. Benaim 851 **Minimization of the gliding index: criterion for the generation of the surfaces of a knee endoprosthesis**

C. D. Bertram 863 **The effects of wall thickness, axial strain and end proximity on the pressure–area relation of collapsible tubes**

C. W. J. Oomens, D. H. van Campen and H. J. Grootenboer 877 **A mixture approach to the mechanics of skin**

Abstracts 887 **Eleventh Annual Meeting of the American Society of Biomechanics**

Books Received 919

Announcements 921 **International Conference on Mathematical Modelling in Science and Technology**

921 **European Society of Biomechanics Meeting**

Software Survey Section I

Volume 20 Number 10

C. W. J. Oomens, D. H. van Campen and H. J. Grootenboer 923 ***In vitro* compression of a soft tissue layer on a rigid foundation**

A. Służalec 937 **Finite element model of heat flow in biological tissue undergoing laser irradiation**

M. J. Pearcy, J. M. Gill, M. W. Whittle and G. R. Johnson 943 **Dynamic back movement measured using a three-dimensional television system**

B. M. Nigg, H. A. Bahlsen, S. M. Luethi and S. Stokes 951 **The influence of running velocity and midsole hardness on external impact forces in heel–toe running**

B. Drerup and E. Hierholzer 961 **Automatic localization of anatomical landmarks on the back surface and construction of a body-fixed coordinate system**

B. Drerup and E. Hierholzer 971 **Movement of the human pelvis and displacement of related anatomical landmarks on the body surface**

R. B. Ashman, J. D. Corin and C. H. Turner 979 **Elastic properties of cancellous bone: measurement by an ultrasonic technique**

H. Iida and T. Yamamuro 987 **Kinetic analysis of the center of gravity of the human body in normal and pathological gaits**

M. G. Faulkner, D. C. Hatcher and A. Hay 997 **A three-dimensional investigation of temporomandibular joint loading**

Technical Note

F. Iaconis, R. Steindler and G. Marinozzi 1003 **Measurements of cross-sectional area of collagen structures (knee ligaments) by means of an optical method**

Announcements 1011 **International Industrial Ergonomics and Safety Conference**

1011 **Citation Database on Bone Mechanical Properties**

Software Survey Section I

Volume 20 Number 11/12

Editorial
